Drawings

New corrected drawings are required in this application because some of the drawings are too big for the page upon which they have been submitted, while others are too dark for interpretation. In particular, figures 1 and 3 extend into the top margin and thus have holes punched in to them from their entry into the file. Figures 4, 5, 8-10, 13, 15, and 26 have high backgrounds which make the data contained therein unintelligible. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
